### SUMMARY OF EVENT:

**FORENSIC DOWNLOAD REVIEW:** Special Agent (SA) Timothy Holden with the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) received a search warrant, 2:22-MJ-03186, to take possession of and search the cellular telephone belonging to William Nirion PENA aka "Twist" (DOB: [REDACTED] 1982; FBI: [REDACTED]).

### NARRATIVE:

1. On August 25, 2022, Computer Forensic Examiner, Randy Mitchell, completed a full Cellebrite Premium file extraction and recovered the device's passcode of "120929". The device was identified as Samsung Galaxy S21 Ultra 5G SM-G998U, bearing telephone number: 1-213-364-7564, Serial Number: R5CR91TJKHX, and IMEI: 350121672354925. For further details, reference the attached Mobile Extraction Report.
2. On September 9, 2022, SA Holden began searching through the forensic copy (ATF Exhibit #119) of PENA's phone and found the following list of phone numbers engaging in conversation with PENA about firearms sales. Due to the large files of the conversations, each file was extracted from the forensic copy and burned to a CD to be used as the attachments. A digital copy of the files was also provided to Assistant United States Attorney David Kowal. Below is a summary of some but not all of the conversations. Please note that while reviewing the extraction, it appears many of the photographs on the device were deleted and unable to be recovered by the extraction, these deleted photos are referenced as "unknown picture(s)" in this report. The image below depicts how the picture is shown in the mentioned pdf reports.
